

CH. RAM DAS

Data Analyst

Hyderabad, Telangana | +91 7093773523 | chramdas2004@gmail.com | [GitHub](#)

Summary

Aspiring Data Analyst and Data Science undergraduate with hands-on experience in Python, SQL, MySQL, Power BI, and Machine Learning. Skilled in data cleaning, exploratory data analysis (EDA), data visualization, and building interactive business intelligence dashboards. Developed end-to-end analytics projects for customer churn prediction and sales forecasting using real-world datasets. Passionate about transforming data into actionable insights to support data-driven business decisions.

Skills

Programming Languages: Python, SQL

Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning

Databases: MySQL

Data Visualization: Power BI, Matplotlib

Machine Learning: Scikit-learn, Random Forest Classification, Random Forest Regression

Tools: Git, GitHub, VS Code

Education

Bachelor of Technology in Computer Science & Data Science

Nov 2022 – Aug 2026

Samskruti College of Engineering & Technology

Achieved a CGPA of 6.63 out of 10.

Intermediate Education

Jul 2020 – Aug 2022

Sri Chaitanya Junior Kalasala

Graduated with a CGPA of 4.8 on a 10-point scale.

Board of Secondary Education (SSC)

Jun 2019 – Sept 2020

Noble high school

Achieved a CGPA of 9.3/10.

Project

Customer Churn Analysis Dashboard | Python, MySQL, Power BI, Machine Learning

[GitHub](#)

- Analyzed over 7,032 telecom customer records using Python, MySQL, and Power BI. Performed data cleaning, exploratory data analysis (EDA), SQL analysis, and developed interactive Power BI dashboards with KPI cards and business insights. Built a Random Forest classification model achieving 79.25% accuracy to predict customer churn and identify key churn drivers.

Sales Analytics Dashboard | Python, MySQL, Power BI, Machine Learning

[GitHub](#)

- Developed an end-to-end sales analytics dashboard using Python, MySQL, and Power BI. Cleaned and analyzed over 9,900 sales records, performed exploratory data analysis, and built a Random Forest Regression model for sales forecasting. Designed interactive Power BI dashboards with KPIs, sales trends, customer segmentation, and regional analysis, providing actionable business insights for decision-making.

Achievements & Extra Curricular

- Won 3rd Prize in "Infinity 2K24" React.js & Web Development Hackathon for Designed and developed a responsive web application, ensuring optimal functionality and user experience across multiple devices.
- Volunteered in the Campus Blood Donation Camp and donated 250 ml of blood.
